No.1/Bol-Hyd/Tech(IVFRT)/2012-13-

dated.

(Sub: Registration in FSIS- Reg.)

Dear Sir/ Madam,

As you are aware, this bureau is implementing Foreigners Students Information System (FSIS), in which each and every educational institution would be provided with a user ID and password to update the data of foreign students studying in the respective institution.

2. Union Ministry of Home desires to monitor the activities of foreign students such as change of course, Academic performance, student exit etc. In FSIS, recommendations of educational institutions on the basis of academic performance, evaluated on quarterly basis of a foreign student shall be considered before granting an extension of VISA. Educational Institutions are also required to inform the Bureau, unauthorised long absence of one month and above of foreign students. A periodic updated report of foreign students has to be submitted by the

institution once in every six months which would facilitate VISA related services to the foreign students in our office.

3. As, the university authorities for foreign student cannot maintain and monitor directly the attendance and aforesaid activities of foreign students studying in the affiliated colleges , all the affiliated colleges and educational institutions under the universities need to be enrolled in this system. A sensitization program will be held for the affiliated colleges and educational institutions any time in the next week viz. 11-15th March, 2013. Hence, details of postal address, E-Mail IDs, name of the representative of the concerned institution and mobile number of the affiliated colleges and educational institutions may please be provided to us on priority basis for further correspondence in this regard.

Bomme
